MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously agreed under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

LIVER COMPLAINTS

Among civilised mankind, there is no complaint so prevalent as the above, late medical statistics showing that fully one-half of nearly all the communities are to a greater or less degree afflicted with it. Under these circumstances, it is highly important that the wonderful curative powers of

BRISTOL'S SUGAR-COATED PILLS.

in Liver Complaint, should be made to the public. They are in this disease, as nearly as can be said of any medical preparation,

A PERFECT SPECIFIC!

PURELY VEGETABLE.

A remedy that is precisely as represented, and one on which the sick and ailing can always depend. Their effect is to tone and strengthen the Liver, to stimulate it in a continuous, natural, and healthy action; to prevent torpidity, to keep the bile from coagulating or becaming thick and sticky, which is always the condition in certain stages of Liver Complaint, being the preliminary to the formation of gall-stones—and the most excruciating pain in their passage through the duct into the bowels.

BRISTOL'S SUGAR-COATED PILLS.

Do not depend upon any mineral or dangerous substance for their acting upon the liver. They are purely vegetable, and entail no evil consequences upon the patient; they do not dry up the natural humidity of the bowels, thereby causing a continual necessity for further purgation, and the ultimate weakening of the entire excretory organs.

PODOPHYLLIN AND LEPTANDRIN.

The active principles of Bristol's Pills are acknowledged by all enlightened physicians to be the surest and safest remedy for every form of hepatic or biliary derangement. No other Pill, of which we have any knowledge, contain these invaluable resinoids. Prepared in our own laboratory, under our personal supervision, they insure the unvarying uniformity of operation for which Bristol's Pills have become so justly celebrated. But the powerful anti-bilious properties of these Pills are not their only virtue, they are besides a splendid tonic, a thorough yet safe cathartic, a sure cure for indigestion and dyspepsia; safe for the weakest, yet strong enough for the most robust. In short, they are an unfailing

SOURCE OF GOOD HEALTH.

To those who use them, without any of the griping, ripening, or weakening effects produced by the operation of other Pill.

In every case where there is reason to suspect that the blood is impure, or that there is any taint of Scrofula in the system, BRISTOL'S SARSAPARILLA should be used in conjunction with the Pills, the two medicines being preparde to act in harmony and when used together they ensure a speedy and complete recovery.

For Sale at all the principal Drug Stores.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

Rosario, March 21, 1870,

Escobar, with a posse of police, has just appeared to shoot us down.

We asked Berrante for his picquet to carry away a dead body.

The situation of the town is terrible.

If measures are not instantly taken, all the foreign population will fly to arms.

The police have only concentrated their forces near the church, while five hundred foreigners and natives and forty of the most distinguished ladies in the town accompanied on foot the body of poor Machado to the church. The members of the Pueblo Club and the police charged on us. Imagine the fight this may prove.

We are in the middle of the street, not knowing what to do, the dead body lying on the ground.

THE ROSARIO RIOT.

The state of affairs in Rosario as conveyed to us by telegraph and by the statement of passengers, is sufficient to indicate the triumph of the old gaucho party in that unfortunate town. Mr. Bell, of D. C. Thompson and Co., and Mr. Rossignol, of Messrs. Green Le Rossignol and Co. both arrived per Capitan yesterday morning, but up to the time these gentlemen had gone on board in Rosario, the disturbance had not assumed such dimensions, and only two men had been shot in the streets. About 9 a.m. on Sunday morning an English gentleman went from the river side to see Mr. Weldon; disliking the general appearance of things, houses shut and a queer lot of fellows riding through the streets, he declined Mr. Weldon's invitation to breakfast, and hurried back to the steamer. Another party strolled up to the Plaza, where he noticed a strong column of men, most of them in 'chiripas' and potro boots, but with a good sprinkling of rather well dressed men amongst them, walking in deep column around the plaza and cheering vociferously. Suddenly a party rode up and told them not to cheer, but to march round the square and hold their ground. The place betrayed every sign of a coming row, so our countryman prudently turned round and made for the port; suddenly bang went a musket, and at first our friend thought he was struck behind, but the bullet it appears passed through the tail of his coat without touching the skin; bang went another gun, and the ball lodged in a door in front: a dropping musketry was now kept up, and the balls spun along the street before him as he made for the river. It was about 12 o'clock when he got on board; the steamer waited 15 minutes beyond her time in order to accommodate any refugees, but the streets were so completely in the hands of a lot of fellows who came in from the camp the night before, that no respectable people dare go out of doors.

At 12.15 the steamer started, and as she came by San Nicolas she passed the Guardia Nacional bringing down the troops. All the troops were on shore washing their clothes and bathing previous to coming to B. Ayres:

The following telegrams were received by the *Tribuna* yesterday—

Col. Patricio Rodriguez,
to
Hector Varela.

The soldiers of the Police have barbaronsly murdered the town.

Over 800 men who went to vote peacefully were surrounded and fired on from the azoteas and street corners.

20 men fired on me, and I escaped miraculously.

Several respectable parties have been wounded and numbers killed.

We are all hiding at the Consulates, where the fellows in pursuit of us dare not enter: they will not take us alive.

If some steps are not at once taken to save the people of Rosario, something terrible must happen.

The foreigners are frightened out of their wits; they must take up arms, for the doors of their houses have been shot away.

PATRICIO RODRIGUEZ.

Another.

The Club Argentino
to
Hector Varela.

The foreigners in whose houses we sought safety have asked us to leave, fearing for their own lives.

The members of the Club del Pueblo are all tipsy and knocking about the streets. The Chief of Police and his men are now frightened at their responsibility to the National Government.

The position of our club is terrible. The Secretary of the Argentine Club has just been murdered. The President of the Club Juventud has just been murdered in the Plaza; two others also murdered, and three foreigners have just been wounded, also in the Plaza.

We have already 33 wounded.

In consequence of this terrible state of affairs the Argentine Minister of War left yesterday morning in the Pavon for Rosario. It is to be hoped that his presence will serve somewhat to restore order.

THE ENGLISH SURVIVORS IN PARAGUAY.

DR. SKINNER, MESSRS. NESBIT, HUNTER AND TAYLOR JUNR.

Mr. Alonzo Taylor who has just arrived from Paraguay brings us news of a favourable character as to the probability of the 4 remaining Englishmen being still alive, and the hope that they will soon turn up at some part of the interior. He supposes from the information given him by Mr. Portillo that they have gone off in the direction of the Upper Paraná.

Mr. Portillo, a native Paraguayan who was educated and married in England, and who accompanied Lopez from Panadero to Yhú, made his escape from the latter place in the beginning of January; he was 22 days travelling on foot through the woods and along some tributaries of the Jejuy, without other food than bitter oranges and wild roots and herbs that he met with on the way. He says that the woods are full of deserters and vagrants. He at last reached safely the town of Rosario, about 40 leagues above Asuncion, and was kindly treated by the Brazilians, being very emaciated and of a yellow color from the privations he had gone through. He was taken before the Prince, and made his declaration, pretty much to this effect.

"Dr. Skinner, and Messrs. Nesbit, Hunter and young Taylor were well and in good health when I escaped from Yhú (about two months before the death of Lopez). Nesbit told me a few days before I escaped that Lopez was going to give them their liberty, as he had no longer any need of them and was running very short of provisions. A day later he learned from several Paraguayans that Lopez had given the 4 Englishmen money, meal, yerba, and manfilioca-flour, at the same time providing them with a canoe, and an officer (alferez) to accompany them as guide in navigating the Aguruy, a tributary of the Jejuy."

This news has been confirmed by the carpenters and workmen recently arrived in Asuncion [from Rosario], who have all told the same story to Mr. Taylor. The rumor about Dr. Skinner and the others having been killed in the canoe cannot be traced to any foundation, and is exceedingly improbable. It is likely that the Englishmen thought it safer to direct their course towards the Upper Paraná, that river being less distant from Ihú than the River Paraguay, and the route less exposed to vagrants and deserters. As they had a supply of everything necessary and were in good health we may hope that they will come out safely somewhere between the Salto de Guayra and Itapua, where they would find two or three small Brazilian cruisers that would pick them up and rescue them.

Count D'Eu, through Mr. Paranhos, sent to inform Mr. Taylor of the escape of the Englishmen, telling him the same news as already related by Portillo. Mr. Taylor expresses his gratitude to Count D'Eu and Minister Paranhos for the kind treatment shewn to himself and his wife and family; also for the pains they are taking in search of his missing son.

Mrs. Taylor, as we published last week, succumbed to the effects of the hardships she had undergone, and her husband brought down her remains on the 13th, and interred them next day at the British cemetery: it was her last wish that her remains should not be left in Paraguay. Mr Taylor leaves for England by the Hipparchus on the 25th inst. taking home his eldest daughter and 3 young children, all born in Paraguay. We are happy to say that he and his children have got wonderfully strong, and are now quite free from all traces of the hardships they went through.

THE GAMGEE MEAT SYSTEM.

Notwithstanding all that has been said and written about the cost of living in Buenos Ayres, the great staples of life are cheaper in this city than in any other place on the habitable globe. Rents are high, wages are dear, and wearing apparel at extravagant prices, but beef, mutton and flour are cheap. A man can pay marketing for his family for say four months for the price of a good suit of clothes at Gibson's or any of the other first-class tailors. For ten pence English, or say five dollars, sufficient meat can be bought in any of our markets for a day's support of a family of twelve. People who live in this city, and who are in any kind of good circumstances, depend so entirely upon cooks that they are victimized in the most wholesale manner. But the fact cannot be denied that the cheapest meat market in the world is that of Buenos Ayres.

The steamer Hipparchus has brought out from England samples of beef and mutton, which in a few days will be exhibited at the Rural Society and tried.

The meat is preserved on the new Gamgee's process. One box containing two sheep, 97¾ lbs. without covering. One tube containing four shoulder mutton 29¼ lbs. airtight with carbonic acid, the meat separated by rice shell. Two shoulders mutton 17 lbs. Two shoulders pork 22 lbs. packed in purified tallow. One parcel containing 1 sheep 52 lbs. packed in linen. The captain of the Hipparchus also received some preserved mutton, which he used on the voyage and found excellent.

As will appear from the following communication received by the last packet, this Gamgee method is now attracting much attention in England; it is considered the best and most feasible yet introduced.

According to all accounts from England by the mail of the 29th January, this process is now regarded by practical men as having naturally accomplished the great desideratum, the progress towards which has been recorded step by step in our columns, ever since Mr Neill, the Montevideau Consul General in England, commenced to chronicle the successive degrees of advancement from the hour the Urnguayan beef obtained the prize medal at the London Exhibition in 1862, the original starting point of this momentous question. From a Liverpool journal of the 17th of January, forwarded by Mr Neill, whom we most heartily congratulate on the confirmation of all his pertinacious faith in ultimate success, despite the derision of incredulity which so long attended his labours, we take the following:

"Professor Gamgee's process is creating quite a sensation amongst the Smithfield market and other butchers, all of whom are applying to the professor for his prescription, which he generously supplies gratuitously. We also understand that some Australian gentlemen were so much satisfied with the experiments, backed by our professor's additional opinion that he believed the application of the process would admit of carcases being brought perfectly fresh from the Antipodes to England, that they have, to solve the question, absolutely started for Australia with some sheep carcases, and, if favourable, they will at once commence forwarding large quantities of beef and mutton to this country. If successful, it is anticipated that this trade may at an early date furnish a most important back freight from Rio Plata and the Brazils and from Australia via the Suez Canal, upon suitable ships being provided".

Mr Neill points out that though at first sight the shortening of the distance between Australia and Europe by the Suez Canal may seem to diminish the superiority Rio Plata now possesses in proximity to the Old World, it must be a very considerable time before the Egypt route can be available for any such freight as meat, and if vessels for its special conveyance be constructed, it must be recollected that they will not be suitable for passengers. This objection, of course, does not apply to the meat in tins, of which Mr Neill so continually speaks; but it does apply, for the most obvious reasons, to carcases, no matter what deodorising or other contrivances are adopted.

Nevertheless, Mr Neill reminds us that the resources of the Australians in London and the colonies are so immense, and their spirit of liberality in employing them is so active and energetic, that the very greatest promptitude may be counted upon at their hands in turning these new prospects to the very best account at the very earliest minute. Hence he desires to impress upon the people of the River Plate the importance of being early in the field in utilising the existing geographical advantages, and so prevent the diversion of what should be our natural current of meat supply, now that the demand seems at last to have found the means of bringing consumers and the product to be consumed into something like proper relations.

FARMING IN CERRO LARGO.

Montevideo, March 19th.
Immigration Office.

To the Editors of the STANDARD.

Gentlemen

As you are in the habit of publishing everything that is of interest regarding the Republic of Uruguay I beg to forward you a letter from Mr. Lockett who has been now two years cultivating a farm of 80 acres at Cerro Largo. Hoping you will publish same, I promise to let you have from time to time whatever news comes to this office regarding immigration and farming.

L. Rodriguez,
Manager.

Cerro Largo, March 9th.

Don Lucio Rodriguez

Dear Sir,

I received your letter of Feb. 28th and books, for which I am very thankful, as they are very useful to me. I sowed 6 fanegas of wheat on 14 cuadras (28 acres); it did not turn out to my satisfaction, but it was on account of the bad seed; it is a fine-grain wheat, and has yielded only 55 fanegas. I planted 5 fanegas of potatoes: they did not come up well, but what came up turned out well. Four acres beans gave me a fine crop, and I am going to gather them in at once; they are worth from 8 to 12 hard dollars per fanega, and potatoes at present 8$ per fanega. Two crops of potatoes can be raised in the year; I planted the first in August, the second in January. Water-melons, pumpkins and all kinds of vegetables do well; I have now 16 cuadras under corn, with fine prospects; I sold wheat last year at 3$ pesos per fanega, which is worth 4$ at present.

I sell my butter at 5 reals (two shillings) a pound, eggs 2 reals a dozen, and fat hens at 6 reals each. A milch cow is worth 12$ (fifty shillings), a fat heifer 8$, and a 6-year old steer 12$. The beef is the finest I have ever met with in all my travels and beats that of Texas. I find a cow will give richer milk than in N. America and the cows are as fine animals as ever I have seen in our country.

As for land a man need never ask for better and the climate is better than that of California, which is considered the best in N. America. It is a rolling country, but scarce of wood, and I think this is the only drawback it has. As for a market we have the Brazilian market of Yaguaron (which is also a port) within 18 leagues of us. We have to pay laborers from 12 to 20 dollars a month, and they are very scarce at that.

I think this is a good place for families who wish to settle in the country. Land can be had here from the Government at one dollar per cuadra (two shillings per acre), but they will not sell more than 40 cuadras to one person. Camp lands sell at 3$ per cuadra.

If you can get me a quiet steady boy I will give him 8$ a month, and pay his passage up here if he stays with me one year. I want also a man that understands farming, and will pay him 14$ a month, but I dont want one that will get drunk: he must speak English and pay his own expenses, but I will guarantee him work at 14$ a month.

My wife joins me in respects to yourself and family.

J. B. Lockett.

MONTEVIDEO.

Saturday.

Nothing very positive is known about the movements of Aparicio and his followers, who are reported one moment at Paso Polanco on the Rio Negro, 200 strong, and the next at Pescado, between Florida and Minas, with a much larger force. The *Tribuna* says that the Government anticipated the invaders taking such a course, and has called out the National Guards in the three departments of Minas, Florida, and Cerro Largo. The Gefe of the last-named place writes under date 14th inst., that before twenty-four hours he will have under arms a force of 1000 horse, 100 foot, and two field pieces. Major Euciso of Florida says he has gathered up 400 men including some officers of influence; and Sr. Perez of Canelones makes a similar announcement. Gen Castro marched to-day for Florida, taking with him Major Olave's battalion and the President's escort under the command of Major Courtin. The Urban battalion, comprising 50 infantry, left Las Piedras last night for Canelones, after a dinner of 'carne con cuero,' and taking with them a supply of cold meat; they were accompanied by a picquet of cavalry under Captain Gonsalez, the Commissary of Las Piedras. Florida is to be the rendezvous, and Gen Castro may expect before fifteen days to have an army of two or three thousand men at his orders, including the contingent of Maximo Perez, 800 men, from Mercedes.

Minister Bustamante issued a decree yesterday dismissing Sr. Ramirez from the post of Secretary to the Junta. He harangued the troops before leaving Las Piedras last night, and sent Major Tavares yesterday to San José.

The *Siglo* publishes Wednesday's meeting of the Central Uruguay Railway: the only shareholders present were Requena (for the Government) Reilles, Aguiar, Rodrigues, Pereyra, Guerra, Croza, Huard, Jens, Salgado, Lermitte, Antonini, Peñalva, Banzá, Cervantes, Torrilla, Santos, Latorre and Lastarria. The annual report by Sr. Rodriguez was read, after which the new Directors were elected viz. Adolfa Rodriguez, D. Torrilla, B. Ayala, Jose S. Diaz, J. Aguiar, and as managing committee P. Croza, N. Farriols, and Salgado. It is now seriously proposed by some of the unfortunate share-holders to sue the Company. The case is as bad as that of the loan to the Junta in which the bond holders have been left lamenting.

Mr and Mrs Heine performed on Wednesday night before a crowded house; it was advertised as their last concert, and the boxes and luneta were filled. They looked quite gay, as there were a large number of the American and Russian officers in uniform. At each succeeding concert, Mr and Mrs Heine have received more and more applause, and last night it fairly reached its climax on his playing some Russian airs, for which he was recalled three times before the curtain. In reply he gave Yankee Doodle, &c., out of compliment to the American officers, but he could hardly get through in consequence of the cheers, bravos, &c. Mrs Heine grows more and more in favour with the public, and the papers even go so far as to state that she plays with more sentiment than the late lamented Gottschalk.

They have been requested by a deputation to give a concert in aid of the 'Mendigos' before leaving for Buenos Ayres, consequently they will not leave till towards the end of next week.

Several couriers arrived yesterday with despatches for the Government. Major Rios writes from Durazno that two of Moyano's officers, named Balsamo and Fernandez, came upon Aparicio's main body at Polanco and a smaller force at Salsipuedes. Aparicio himself is stopping at the estancia of D. Basilio Muñez, jun., whom he cannot persuade to join him. Rios has got together 400 men for the Government. Vidal, Burgos, and other well-known officers in Canelones have declared for the cause of law and order. Col. Ordeñez has issued a citation for the National Guards of Colonia. From the look of affairs it would not be surprising if Aparicio made a bold march towards the capital.

PUBLIC LANDS.

We have tried to understand the policy of the Government with regard to public lands, and have come to the conclusion that it has no policy at all, or rather that its policy consists of inaction. With the vast extent of waste lands in its possession this neglect becomes almost criminal, and it is time that some sweeping reform should abolish the old abuses of past generations and allow a new state of things to advance the country by a straightforward allotment of this great national wealth. It is not enough to induce immigration alone, but it must also offer substantial advantages to the men who leave their homes and native hearths, often never to return. The great motive power which induces immigration is the hope of independence, and is the same natural instinct which changes the greatest radical mobsman into an ultra-conservative.

Give a man a stake in the national commonwealth, and you secure him and his children, and you will not have the mortification of seeing him return from whence he came with his hard earned gains. We hold that every man who leaves this country after years of toil, is a slur on the Government which with such boundless materials at its command, cannot offer sufficient inducement to retain him. If we turn to examples, of lands which in a few years sprung from howling wastes, into populated and thriving colonies we find that private enterprize has been fostered and advanced by every reasonable measure, but in this Republic private enterprise is held back by the jealousy of the quons dam owners, who (like the dog in the manger) cannot do any good with it themselves and will not allow others.

We are informed that we have but to solicit land situated beyond the frontiers, and upon complying with certain conditions it is to become ours. But is this the case? To our cost we find that it is not. True, certainly, that you may occupy it until by your energy you have made it some value, but then you are either obliged to buy back your own labour at a high price or see another, wealthier than yourself step in and profit by your years of toil.

The remedy seems to us simple. Let all unoccupied public lands be duly surveyed and mapped out into moderate sized plots and offer them at a fixed price, to be paid by instalments extending over a series of years; let the would be occupier pay cash for the cost of surveying, and let him deposit a certain sum with the Provincial Bank as guarantee that he intends to stock and occupy the land. We will suppose that a league of frontier land is valued at $20,000 m|c. and surveying fees $5,000 m|c. in all $25,000 m|c

The settlers would be called on to pay as follows:—

Surveying fees	$5,000
Cash deposit	10,000
3rd year	5,000
5th year	5,000
	$25,000

In this plan there is little that is new excepting that a price is put upon the land at once and the terms are clearly defined. The first two payments would be cash and legal pagarés might be given for the remainder subject to discount at the option of the buyer. We are not here considering the larger class of immigrants who have nothing to offer to their adopted country but the strong arm of labour, but confine ourselves to those who bring besides a small capital to second their efforts; and of these there are more come to these provinces than would at first be supposed,

Among us here in Bahia Blanca we have numbers who would gladly accept the above terms rather than remain another year in uncertainty, though it would indeed be hard if the Government should now draw back from the terms on which we were induced to go there.

In Patagones we see the land extending for leagues up one of the finest rivers in the Republic monopolized by a concession to the wealthy natives who have never been able to fulfill the stipulated conditions, and yet remain in possession. Then why not concede other small tracts to men whose one object is to fulfill these conditions and make themselves permanent homes. We are ready to bring labour, machinery, and capital and invest it here, in fact many of us have done soon the faith that we have in the promises of the Government at present conducted by so liberal and enlightened a man as H. E. President Sarmiento.

A VOICE FROM THE FAR SOUTH.

GUALEGUAYCHU.

March 13, 1870.

The news of the death of Lopez has been received here with an incredulous shrug of the shoulders. The most believing only note the fact of the report as perhaps the first symptoms of a lingering disease of which Lopez, like any other mortal, may ultimately die: while the less credulous accept it as prophetic of the immortality of the President. "For," say they, "if the man's mother, who may be presumed to be nearly twice his age, has been killed eighty-five times, and yet still survives, who shall live to see the 'bona fide' death of the man himself?"

Besides, it looks knowing to disbelieve. Believe nothing, and you can never be deceived. As the use of language was said by somebody, (I am not sure which it was, Machiavelli or Talleyrand, La Rochefoucauld or Voltaire, Geo. Francis Train, M. Spurgeon, or Joe Miller) to be to conceal thoughts, so the use of faith, in a worldly sense, may be said to be to deny. "Dex geish dex stets verneint" is the spirit of the nineteenth century. If there were any Funds in this province liable to be affected by the Paraguayan news in question, I am sure they would mark the event by a fall instead of a rise.

There was a good deal of amusement in town during Carnival, and the citizens have scarcely yet settled down to their Lenten duties. Sr. Candels' Zarzuela Company is still here, and is drawing very crowded houses. Last night was the benefit of Sra Garcia; she was welcomed with great enthusiasm, and nearly smothered in bouquets and wreaths.

I send you a card of the races. You will see that the 'Barroso,' (the same which challenged 'Gauchito') is entered for the 30 square race. General Urquiza is expected to arrive in Gualeguaychú on the 29th inst., that is three days before the meeting. It is to be hoped that he will not be pestered by deputations and demonstrations this time.

The weather has been quite cool for the last week, a great deal of rain having fallen on Wednesday.

Very little has been done of late in the way of sales of stock. The saladeristas have advanced one dollar on their covenant price of $8; and, I suppose, have been kept going by a few small holders who could hold out no longer.

It is a delightful study to observe the faith which men have in one another in this country. A very pleasing instance occurred the other day. M. and G., both cattle estancieros, met in town, and in talking over the prices of cattle both agreed not to sell to butchers at any price. They parted; G. went straight to the market to try to do a little bit of business with the butchers. He had scarcely entered the market when M. arrived from an opposite direction with the same view Was not the mutual confidence touching? If G. had not confidently believed that M. would keep his word, he would not have broken his, and 'vice versa.' It is true, a sneerer might say that each knew when he made his, the value of the other's promise.

I have just heard that General Urquiza will arrive here on the 26th. His horse the oscuro 'Cimarron' having a race on the 28th with the barroso 'Pobre Diablo.' The distance is thirty squares, and as both horses are entered for the English thirty square race, we shall have an opportunity of comparing the form of the two horses beforehand.

Confirmation No. 1 of the news of Lopez' death and that of his sons has reached us since the above was written.

MEPH.

EDITOR'S TABLE.

The city was startled on Sunday by the intelligence of a serious riot having broken out in Rosario on that day at the elections, notwithstanding the extraordinary precautions adopted by the authorities to prevent such taking place. The affray was a most serious one, pistols, knives and other weapons being used freely. Some of the combatants were killed and a great number wounded. We give full particulars of this lamentable affair in another column.

The passengers per Oneida and City of Rio de Janeiro, who had been confined for some days in quarantine at Ensenada, received with much satisfaction on Saturday night the gratifying announcement that their period of probation was at an end, the Government having resolved, to give them 'pratique.' They all came to town on Sunday morning, some of them appearing evidently the worse for their period of confinement. It is to be hoped that Government will at last take measures to have a lazaretto at once prepared at Ensenada that may answer present and future purposes. Yellow fever is unfortunately no stranger in Rio, and will continue to visit the place in all probability yearly. We must therefore make arrangements for permanent and effective precautions either through establishing floating sanitariums or erecting a commodious building equal to the accommodation of at least 1000 or 1500 people. The subject is one that requires the immediate and earnest attention of Government.

We are enabled to contradict the statement published by many of our colleagues in Montevideo to the effect that three fatal cases of yellow fever had occurred in this city. The only case that came to the knowledge of medical men here was that of the Rev. Mr. Lett, who has now, we are happy to say, completely recovered.

Sunday was a charming day. Though the thermometer stood nearly as high as on any day during the summer, there was a fresh breeze blowing from the South that tempered the intense heat of the sun, and the railways and busses to the outskirts and suburbs were crowded with pleasure seekers. Belgrano, which had been rather neglected for some time past in favour of its rivals the Tigre, San Isidro, San Fernando and other spots had crowds of visitors attracted by the splendid weather and the promised race between Cimarron and No Se (which by the way did not come off). Watson's was crowded to excess all day, and 'mine host' must have been satisfied at the result of the day's business.

The *Regeneracion* of Asuncion says that the great question now before the Paraguayan people is the election of a Constitutional President; that it would be as yet premature to bring it forward, but that the people should begin to think over it, and when the candidates appear scrutinize minutely the past career of each, in order not to be deceived in the choice of a Chief Magistrate, who has such a gigantic task before him as the reorganization of the country.

In view of the disturbances in Rosario Colonel Gainza, Minister of War, left town at 6 o'clock p.m. yesterday morning for that place.

A frightful accident occurred at Belgrano on Sunday on the arrival of the down train, which reached that station at half-past 5 o'clock. As the train approached the platform a peon was standing on or crossing the line, and, notwithstanding that the whistle was sounded in time to warn him, he was caught by the cow-lifter, and, strange to say, thrown apparently but little hurt on the platform. The crowd waiting for the train, however, was so great that the unfortunate man could not make good his footing and again fell on the track, the wheel of the engine going over his head and one shoulder, completely severing them. The scene that ensued amongst the crowd was most painful as the mutilated body was extricated from the wheels and placed on the platform. The sight of the pool of blood between the rails seemed to affect most distressingly many ladies as they crossed the line to the up train waiting to start for town. As far as we could learn no blame can be attached to the engine-driver or any of the Company's servants for this lamentable occurrence.

The *Capital* of Rosario says that General Gelly y Obes left that place on Friday on his way up to Asuncion.

Dr. Don Mariano Varela leaves tomorrow for Paraguay to hold a conference on the present state of affairs with Minister Paranhos. Sr. Rodriguez, the Oriental Minister, left Montevideo on Saturday for the same destination and with the same object; he took passage in a Brazilian man-of-war that was expressly placed at his disposal.

A train on the Barracas line ran over and killed a poor Italian who was walking along the line; the unfortunate man was deaf and could not hear the train approaching him.

We had a visit yesterday from Mr. Alonzo Taylor who has just come down from Paraguay. We are happy to say that this gentleman has completely recovered from the effects of the sufferings and tortures he underwent: he gave us some interesting news from the seat of the late war.

Sunday last was the ninth anniversary of the destruction of Mendoza by earthquake.

We feel most happy in announcing that Dr. Montes de Oca is now convalescent and on the high road to perfect recovery.

The widow of General Oroño has been granted a pension equal to half her late husband's pay.

A guard was killed on the Western Railway on Saturday near the Gorostiaga station: the engine wheels cut his body in pieces.

The alabaster rocks recently discovered at Famatina form immense promontories of this precious substance of the purest kind. The marble discoveries are also of great value. Three lots have already been taken up by Messrs. Vigae, Luna, and Gimenez and working will soon be commenced

A 'fonda' in Rosario was struck by lightening the other day and the counter and shelves destroyed; strange to say none of the inmates were injured.

The *Capital* of Saturday announced that Governor Cabal would be present at the elections and that crowds of people from the surrounding districts had commenced to pour into town evidently intent on taking part in the election contest,

At the Pelotas saladeros since the beginning of the year to the 2nd inst. 130,313 bullocks have been slaughtered.

At Rio yellow-fever is moderating. In the Sta. Isabel Hospital the death rate has fallen to one per diem; the disease is expected to disappear with the advent of cooler weather.

An English gentleman, while out riding on the Palermo Road, between Belgrano and that place, on Saturday night about nine o'clock, was accosted by a ruffianly-looking gaucho, also mounted, whose movements were so suspicious that being unarmed, our friend thought it prudent to trust to his horse's heels rather than the peaceable intentions of the man. The Britisher went away at full gallop for Palermo, followed at about ten yards distance by his would-be assailant, shouting that he was a commissary and uttering the foulest imprecations on the superior speed of the Englishman's horse. On nearing the lights of Palermo the gaucho, with a parting curse, turned his horse's head and went at full speed towards Belgrano. There can be no doubt that the fellow's object was plunder, if not murder, and we should recommend those who are in the habit of taking moonlight rides in this or any other neighborhood to go armed with a revolver. The Palermo road has for a considerable time been considered pretty safe at all hours, but this very circumstance may encourage any escaped criminals to attempts similar to the foregoing.

The Chief of Police in Asuncion opened the prison doors to all confined therein on the arrival of the intelligence of Lopez' death.

Dr Newkirk has returned to Asuncion from his visit to this city, and has resumed the extensive practice he enjoys in the capital of Paraguay.

Friday next, Lady Day, will be observed as a strict holiday at the Bank and all public offices. It is one of the leading religious festivals in all Roman Catholic countries.

Mr. Weilman, our late agent in Cordoba, is going to Asuncion for the benefit of his health: Mr. Moffat, of that city now represents the STANDARD there. We have to thank Mr. Wielman for his zeal in our service, and trust soon to hear of his recovery.

The General Nazar has come down from Paraguay. Nothing new. Minister Paranhos waiting for the Argentine and Oriental Ministers, and all Brazilian troops going Humaita to embark for home.

We shall publish the letters of H.R.H. the Prince of Wales to Lady Mordaunt to-morrow.

The Government took off the prohibition from the tramways on Sunday, and they carried a good many passengers on that day and yesterday.

Dr. Munis Barreto delivered a most eloquent oration in the Cathedral at Asuncion at the conclusion of the Te Deum sung to celebrate the conclusion of the war and death of Lopez.

The last mails from Chile bring the following advices:

To-day the Batalion Civico has been placed under arms, also all the 'Escuadrones de Caballeria.' The day after to-morrow the campaign is to be opened against King Orelie, who is fortifying himself on the river Muco. A few days ago, after some artillery practice, an Indian boy picked up a shell that missed fire, and taking it home, threw it into the fire to 'warm' it. After a short time it burst, seriously wounding eight or ten women and children, who were in the wigwam.

The *Regeneracion* contains a notice of the death of Mr. James Bell, who lately died in Asuncion. The many good and sterling qualities of the deceased are done the fullest justice to in our colleague's remarks on the event.

A Rosario correspondent writes us as follows:

Yesterday a Sanjuanino stabbed the boatman put who him on board the Nicolas Albert, as he himself says, because he had a desire to kill some one—plenty of witnesses to the act, and we have his own reasons. He has gone to the Policia to form a fourth at Truco or an additional hand at Monté, whilst the victim, an Italian, lies stark and stiff at the Capitania.

MORDAUNT v. MORDAUNT

Letters of the Prince of Wales.

The *Birmingham Post* publishes the following among other letters alleged to have been written by the Prince of Wales to Lady Mordaunt:—

Sandringham, King's Lynn,
December 5.

My dear Lady Mordaunt,

Many thanks for your letter which I received this evening, and I am very glad to hear that you like the ponies, but I hope that they will be well driven before you attempt to drive them, as I know they are fresh. They belonged originally to the Princess Mary, who drove them for some years, and when she married, not wanting them just then, I bought them from her. I am not surprised that you have had no hunting lately, as the frost has made the ground as hard as iron. We hope, however, to be able to hunt to-morrow, as a thaw has set in. We killed over a thousand head on Tuesday, and killed forty woodcocks to-day. Lover has been in good force, and as bumptious as ever. Bradford is also here, so you can imagine what a row goes on. On Monday next I go to Buckenham, and I am indeed very sorry that we shall not meet there. I am very sorry that you have been seedy, but hope that you are now all right again.

Ever yours very sincerely,
ALBERT EDWARD.

Monday.

My dear Lady Mordaunt,

I am sure you will be glad to hear that the Princess was safely delivered of a little girl this morning, and that both are doing very well. I hope you will come to the Oswald and St. James' Hall this week. There would, I am sure, be no harm of your remaining till Saturday in town. I shall like to see you again.

Ever yours, most sincerely,
ALBERT EDWARD.

Thursday.

My dear Lady Mordaunt,

I am sorry to find by the letter that I received from you this morning that you are unwell, and that I shall not be able to pay you a visit to-day, to which I had been looking forward with so much pleasure. To-morrow and Saturday I shall be hunting in Nottinghamshire; but if you are still in town, may I come to see you about five on Sunday afternoon? and hoping you will soon be yourself again.

Believe me,
Yours ever sincerely,
ALBERT EDWARD.

Sunday.

My dear Lady Mordaunt,

I cannot tell you how distressed I am to hear from your letter that you have got the measles, and that I shall in consequence not have the pleasure of seeing you. I have had the measles myself a long time ago, and I know what a tiresome complaint it is. I trust you will take care of yourself, and have a good doctor with you. Above all I should not read at all, as it is very bad for the eyes; and I suppose you will be forced to lay up for a time. The weather is very favourable for your illness, and wishing you a speedy recovery,

Believe me,
Yours most sincerely,
ALBERT EDWARD.

Captain Dawson Damer is going to suggest on Monday the imposition of some check on the publication of proceedings in the Divorce Court. The publication of criminal literature, whether from that or any other Court, affects society according to the constitution of society. Every year there are a certain number of thieves made by imitation of notorious trials. But the balance of good is, we are convinced, on the side of publicity. Any people will have that for which their taste craves. So long as our highest class in wealth and social position is found, as it is to day, thronging the doors of the Divorce Court, and listening with eager appetite to the details of the Mordaunt case, it is perhaps too much to hope that the publication of the evidence will be wholly fraught with good results But surely there is great utility in its publication. If that which is called 'society' does not—and everybody knows that it does not—turn away from the seducer and the adulterer, from the destroyer of the happiness and purity of an English home, as it would from a less guilty felon, there is surely some useful punishment reserved for such wrongdoers in the disgust and contempt which the after-mention of their names must excite in the better and sounder portion of the community. They would—so faulty is our law—altogether escape punishment were it not for the terrible pillory in which this publicity holds them to the scorn of decent men and women.

TRIAL BY JURY.

To the Editors of the STANDARD.

Messrs Editors,

I have just read in your 'Editor's Table' your appreciation of the sentence passed by the jury on the accusation of the *Intereses Argentinos* for libel, by a number of Italian citizens, and which you seem to condemn, being (as you so justly observe) given by individuals utterly ignorant of law. Nothing is truer thus far, as with the exception of Dr. Agrelo, all the rest of the tribunal were really what are termed in the Spanish language 'legos.' But if you in your turn had not been utterly ignorant of the existence of a *ley de imprenta*, on which this judgment had been based, you would have seen at once that the application of that law in existence required nothing but common sense, of which I suppose you would not think us devoid. If your ideas of the offence judged differed from those of the jury, you might have clearly said, that there was no ground for the accusation, nor a gross insult offered to all the Italians in the article that appeared in the *Intereses Argentinos*, and which was condemned by the jury.

I remain, Gentlemen,
Your most obt. servant.
Mo. BILLINGHURST,
One of the Jurymen.

[We take no exception to the verdict, but wished to observe that in England and the United States a jury never imposes a fine. The sentence is always delivered by the judge.—ED.]

ON 'CHANGE.

March 21st 1870.

Ounces,	400
Sovereigns	122½
Patacons	25
Nat. Bonds	67

There was nothing done in bonds to-day, the market is without any change, some important advices are looked for by the packet. Money rules the same, offering at 12 per cent, and some bills discounting at ½.

The affair in Rosario was much talked of, in foreign circles it was remarked that a gunboat ought to be sent up at once, but telegrams received in the afternoon were of a less alarming character, the conduct of the President in at once despatching the Minister of War was warmly approved of.

There was not much done in the produce market to day. Buyers are waiting for advices per French mail; she is looked for to night or to-morrow morning.

Some rumours were current of troubles in Corrientes, and those with business connections up there anticipate a revolution.

Respecting the reform of the wool tariff in the States, we have the following important advices per Hipparchus:

The bill reported yesterday by Gen Schenck from the House Committee of Ways and Means looks to a readjustment and moderate reduction of duties without a sacrifice of Protection. It leaves the duties on Salt, Wool, Bituminous Coal, Railroad Iron, Hides, and many other important articles, unchanged. It reduces that on Pig iron from $9 to $7 per ton, but increases those on many descriptions of Steel and refined or manufactured Iron. On Woolen and Cotton fabrics, we believe there is a general reduction, though not a large one. On Lumber, there is considerable reduction; also on Cognac Brandy, Drugs, and we think on most Wines. Many duties which have been 'Ad Valorem' are made specific; and that is a decided improvement. The higher duties on Steel Rails are required to sustain our still immature manufacture, and will do good if adopted. So will those on most descriptions of Rolled, Hammered and Refined iron.

The following is an extract from the proposed bill, by which it will appear that the new duty on sheepskins will be same as on wool, which will of course close the American market to us:—

"On wools on the skin the same rates as on other wools, the quantity and value to be ascertained under such rules as the Secretary of the Treasury may prescribe; on flannels, blankets, knit goods, hats, and yarn composed wholly or in part of wool, valued at not exceeding 40 cents per pound, 20 cents per pound; valued at or over 40 cents per pound, and not exceeding 60 cents per pounds, 30 cents per pound; valued at over 60 cents per pound, and not exceeding 80 cents per pound, 40 cents per pound; valued at over 80 cents per pound, 50 cents per pound, and in addition to said rates of duty, 35 per centum ad valorem."

Messrs. Green and LeRossignol, in their last circular, report the following sales:—

TIME'S CERTIFICATE.—For 37 years Bristol's Sarsaparilla has been purifying the vitiated blood of diseased humanity. The chemical antagonist of every species of virus that corrupts the flesh, inflames the skin, impairs the elasticity of the sinews, injures the glands, or destroys the bones, it has saved hundreds of thousands from the horrible fate of being decomposed alive by scrofula, cancer, scurvy, necrosis, abscess, and other external diseases which resist the action of mineral medicines, but are arrested and obliterated with absolute certainty by this pure vegetable blood depurative. When ulcerous and eruptive maladies are accompanied, as is generally the digestive organs, Bristol's Sugar-coated Pills should be used in conjunction with Bristol's Sarsaparilla

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from NINE a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

VALUABLE SAW MILL PROPERTY FOR SALE, IN BRAZIL.

A very favorable opportunity for a profitable investment in producing the most beautiful kinds of the variegated woods of Brazil, is now offered to dealers in Mahogany, Rosewood, Lignumvitæ, Brazilian Cedar, Cannela, Perroba, and the celebrated Arriba, the richest veined cabinet woods of South America.

The transportation of logs down the River Itajhay, by one branch of fifty miles, and another of forty miles, affords great facilities for an abundant supply for the Saw Mill.

The Mill is located only 1½ miles from the sea, in the Province of Santa Catharina, 45 miles distant from Desterro, the capital, and 350 miles south of Rio de Janeiro by sea. Vessels drawing 18 feet of water can take cargoes from the Saw Mill Wharf.

The Saw Mill is 108 feet by 72 feet, with about six acres of land, containing orange and banana trees, and a tenement House 108 feet by 32 feet.

Piles are driven to form a large Boom for Logs, and a Logway and Apparatus made for drawing up the logs to the Mill, together with a Double-truck Railway for delivering the sawed lumber on shipboard.

An Office and Storehouse are on the Premises

There are two new large Cylindrical Flue Boilers, with a return flue through each, made of the best flange iron, and a powerful Steam Engine, capable of sawing 12,000 feet of boards in a day; a 60-inch circular saw, spare saw, and extra movable teeth, slabbing and edging saw, best double leather belts, a good blacksmith's and carpenter's shop, turning engines, and a supply of vices and tools for repairs.

The whole Establishment is the most complete in South America.

A new and first-rate large planing and grooving machine is in operation in the Mill.

A Plan of the Building, and samples of the beautiful available woods, may be seen, on application to Crawford Allen, Providence; or Allen D. Baily, 181 Pearl-street, New York. Post Office address—Box No. 690.
